

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
	17 OHP, Serum (17-OH progesterone)	Look for 17-OH progesterone		262	Endocrinology		1 week
1	17-keto steroids, Urine	Urine, 24 hours	450.00	467	Pharmacology		1 week
2	17-ketogenic steroids, Urine	Urine, 24 hours	500.00	467	Pharmacology		1 week
3	17-OH progesterone, (17 OHP) Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	1,000.00	262	Endocrinology		1 week
4	5- Hydroxy – indol acetic acid, (HIAC) ,Urine	Urine, 24 hours	1,000.00	467	Pharmacology		4 days
5	Acanthamoeba species detection	Corneal scrapings, Corneal biopsy	Free	244	Parasitology		1 day
6	Acetyl Cholinesterase (screening test), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry	temporarily unavailable	3 days
349	ACTH	Blood in EDTA tube, Contact Endocrinology lab for collection & transport procedures		261	Endocrinology	Done on prior appointment	1 week
	Adrenocorticotropic hormone	Look for ACTH					
7	AFP surveillance	Faeces two samples collected within 14 days of onset of paralysis, 24-48 hrs. apart, transport with ice packs in a reverse cold chain box or rigid box	Free	452	Virology		2 weeks
	AFP, Serum	Look for Alfa Feto Protein, (AFP) Serum		262	Endocrinology		1 week
8	Albumin & Globulin, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	125.00	255	Biochemistry		2 days
	Albumin, Urine	Look for Microalbumin, Urine (albumin)	400.00	255	Biochemistry		
	Albumin/ Creatinine ratio	Look for Micro-albumin/Creatinine ratio, Urine (Albumin/Creatinine ratio)		255	Biochemistry		2 days
351	Aldosterone	Blood, Please contact the laboratory before collection		262	Endocrinology	Done on prior appointment	1 week
353	Aldosterone renin direct ratio	Blood, Please contact the laboratory before collection		262	Endocrinology	Done on prior appointment	1 week
352	Aldosterone renin ratio	Blood, Please contact the laboratory before collection		262	Endocrinology	Done on prior appointment	1 week
9	Alfa Feto Protein, (AFP) Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	1,000.00	262	Endocrinology		1 week
10	Alkaline Denaturation test for fetal haemoglobin (HbF)	Blood		364	Haematology	Done on prior appointment	1 week
11	Alkaline Phosphatase, (ALP) Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	150.00	255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
12	Allergen specific IgE for Beef, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
13	Allergen specific IgE for Cat dander, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
14	Allergen specific IgE for Cockroach, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
15	Allergen specific IgE for Cow's milk, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
16	Allergen specific IgE for House dust mite, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
17	Allergen specific IgE for Penicillin G, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
18	Allergen specific IgE for Soya, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
19	Allergen specific IgE for Wheat, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
20	Allergen specific IgE for Whole Egg, Serum	Blood in a dry plain tube	3,000.00	355	Immunology	Done on prior appointment	depend on number of samples
	ALP, Serum	Look for Alkaline Phosphatase, (ALP) Serum		255	Biochemistry		2 days
	ALT, Serum	Look for SGPT (ALT), Serum		255	Biochemistry		
21	Amikacin concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs at 2 - 8 ^o C in Styrofoam box	800.00	467	Pharmacology	temporarily unavailable	3 days
22	Amino acid chromatography (Screening), Urine	Urine, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	1,000.00	262	Endocrinology	temporarily unavailable	

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
23	Amoeba culture	Faeces	1,000.00	244	Parasitology	temporarily unavailable	
24	Amylase, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	200.00	255	Biochemistry		2 days
25	Amylase, Urine	Spot Urine in sterile plain bottle transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C	400.00	255	Biochemistry		2 days
	ANA Titre, Serum	Look for Anti Nuclear Antibody Titre (ANA titre)		355	Immunology		3 weeks
	ANA, Serum	Look for Anti Nuclear Antibodies (ANA)		355	Immunology		3 weeks
	Anaerobic Culture	Look for Blood/pus/tissue/body fluids/stools for anaerobic culture		343	Enteri & Anaerobic Bacteriology		
26	ANCA	Blood (3 ml) in a plain dry tube		355	Immunology	temporarily unavailable	3 weeks
27	Anti Fungal Sensitivity Test	Culture isolate (Yeast)	2,000.00	333	Mycology		
28	Anti mannan antibodies for candida (Candida Antibody ELISA), Serum	2 ml serum	10,000.00	333	Mycology	temporarily unavailable	
29	Anti Nuclear Antibodies (ANA), Serum	Blood (2 ml) in a plain dry tube	250.00	355	Immunology		3 weeks
30	Anti Nuclear Antibody Titre (ANA titre)	Blood (2 ml) in a plain dry tube	400.00	355	Immunology		3 weeks
347	Anticardiolipin antibody (Cardiolipin IgG)	Blood (3 ml) in plain dry tube	1,200.00	355	Immunology		depends on number of samples
346	Anticardiolipin antibody (Cardiolipin IgM)	Blood (3 ml) in plain dry tube	1,200.00	355	Immunology		depends on number of samples
31	Anticardiolipin Antibody (Cardiolipin IgG & IgM)	Blood in dry plain tube		355	Immunology	temporarily unavailable	
354	Anti-CCP Antibody test	Blood (3 ml) in plain dry tube		355	Immunology		3 weeks
	Anti-cyclic citrullinated peptide antibody	Look for Anti- CCP antibody		355	Immunology		
	Antigen detection test (Bacterial) by Latex agglutination test, CSF	Look for C.S.F. Antigen detection test (Bacterial) by Latex agglutination test		336	Clinical Bacteriology		
	Anti-neutrophil Cytoplasmic Antibody	look for ANCA		355	Immunology		
32	Anti-Streptolysin O titre	Blood in a dry plain tube	150.00	345	Serology	temporarily unavailable	1 day

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
33	Anti-tg (IgG class of thyroglobulin autoantibodies) (Antithyroglobulin antibody) (Thyroglobulin antibody)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,000.00	262	Endocrinology		1 week
	Anti-thyroglobulin antibody	Look for Anti-tg (IgG class of thyroglobulin autoantibodies) (Antithyroglobulin antibody) (Thyroglobulin antibody)		262	Endocrinology		1 week
	Anti-thyroid peroxidase antibodies	Look for Anti-TPO (IgG class of thyroid peroxidase autoantibodies (Anti-thyroid peroxidase antibody) (Thyroid peroxidase antibody)		262	Endocrinology		1 week
34	Anti-TPO (IgG class of thyroid peroxidase autoantibodies (Anti-thyroid peroxidase antibody) (Thyroid peroxidase antibody)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,000.00	262	Endocrinology		1 week
	ASOT	Look for Anti-Streptolysin O Titre		345	Serology		1 day
35	Aspergillus antibodies (Immunodiffusion test)	2 ml serum	9,000.00	333	Mycology		
	Aspergillus antigen Test	Look for Galactomannan test for Aspergillus		333	Mycology	Temporarily unavailable	
	Aspergillus IgG Antibodies	Look for IgG anti-aspergillus antibodies		333	Mycology		
	Aspergillus Precipitin Test	Look for Aspergillus antibodies (Immunodiffusion test)		333	Mycology		
	AST, Serum	Look for SGOT(AST), Serum		255	Biochemistry		2 days
36	Autoclave/Sterilizer efficiency Testing using spore bottles	Spore bottles	500.00	343	Enteri & Anaerobic Bacteriology		6 days
37	Bacillus anthracis culture	Clinical sample	5,000.00	336	Clinical Bacteriology		5 days
38	Bacterial isolate for identification	Isolate	2,000.00	336	Clinical Bacteriology		4 days
39	Bile stone Analysis	Bile stone	300.00	255	Biochemistry	not done	
40	Bilirubin (Total), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days
41	Bilirubin(Total), Direct Bilirubin and Indirect Bilirubin	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	150.00	255	Biochemistry		2 days
	Bilirubin, Serum	Look for Direct & Indirect Bilirubin, Serum		255	Biochemistry		
42	Biopsy for Direct microscopy & fungal culture	Biopsy specimens	3,000.00	333	Mycology		

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
	BK Virus PCR, Realtime	Look for PCR, Realtime for BK Virus		452	Virology		1 week
43	Blastomyces antibody test (immunodiffusion test)	2 ml serum	12,000.00	333	Mycology		
	Blastomyces Precipitin Test	Look for Blastomyces antibody test (immunodiffusion test)		333	Mycology		
44	Blood for Fungal culture	Blood collected in culture medium	3,000.00	333	Mycology		
45	Blood/pus/tissue/body fluids/stools for anaerobic culture	swab/clinical specimen	1,000.00	343	Enteri & Anaerobic Bacteriology	If negative 5 days (Actinomyces culture 10 days)	7 days
46	BNP (Brain Natriuretic Peptide)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	3,200.00	262	Endocrinology		2 weeks
	Brain Natriuretic Peptide (BNP)	Look for BNP (Brain Natriuretic Peptide)		262	Endocrinology		
47	Brewers test (G6PD)	Blood		364	Haematology	Done on prior appointment	1 week
48	Brucella antibodies	Blood in a dry plain tube	150.00	345	Serology		3 days
49	Brucella cultures	Blood in automated blood culture bottle / Castanedas medium obtained from MRI	400.00	336	Clinical Bacteriology	Incubated for one month	When positive growth, informed to the ward
	BUN, Serum	Look for Urea or BUN, Serum		255	Biochemistry		2 days
50	C - peptide	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,500.00	262	Endocrinology		1 week
51	C.difficile Toxin A detection	Faeces	1,400.00	343	Enteri & Anaerobic Bacteriology		2 days
52	C.S.F. Antigen detection test (Bacterial) by Latex agglutination test	CSF	5,000.00	336	Clinical Bacteriology		2 hours
	C3, Serum	Look for Complements (C3), Serum		355	Immunology		
	C4, Serum	Look for Complements (C4), Serum		355	Immunology		
53	CA 125	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	2,000.00	262	Endocrinology	Temporarily unavailable	1 week
54	CA 19-9	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	2,000.00	262	Endocrinology		1 week
	Ca ⁺ Serum	Look for Calcium (Total), Serum		255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
	Ca ⁺ Urine	Look for Calcium, Urine		255	Biochemistry		2 days
55	Calcium (Total), Serum	Blood in a dry acid-washed plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box 2 - 8 ^o C	150.00	255	Biochemistry		2 days
56	Calcium, Ionized , Serum	Blood in a dry acid-washed plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	400.00	255	Biochemistry		2 days
57	Calcium, Urine	Urine, 24 hours collection in to a bottle containing 30 ml 6N HCl, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	150.00	255	Biochemistry		2 days
	Calculated plasma renin activity	Look for Renin		262	Endocrinology		
58	Calculi analysis, Urinary	Renal calculi	350.00	255	Biochemistry	not done	
59	cANCA	Blood (3 ml) in a plain dry tube		355	Immunology		3 weeks
	Candida Antibody- ELISA	Look for Anti mannam antibodies for Candida		333	Mycology	Temporarily unavailable	
	Candida Antigen Test	Look for Mannan antigen for Candida (Candida Antigen ELISA)		333	Mycology	Temporarily unavailable	
	Candida Precipitin Test	Look for Candida spp. antibodies test (immunodiffusion test)		333	Mycology		
60	Candida speciation	Candida isolate	3,000.00	333	Mycology		
61	Candida spp. antibodies test (immunodiffusion test)	2 ml serum	5,000.00	333	Mycology		
62	Carbamazepine concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	2,700.00	467	Pharmacology	request should be authorized by the consultant	3 days
63	Carbapenamase production, Testing of Organism for	Isolate	500.00	353	Bacteriology QC		3 days
	Carcino-embryonic Antigen (CEA), Serum	Look for CEA Carcino-embryonic Antigen)		262	Endocrinology		1 week
	Cardiolipin antibody	Look for Anticardiolipin Antibody (Cardiolipin IgG & IgM)		355	Immunology		
64	CEA Carcino-embryonic Antigen), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,000.00	262	Endocrinology		1 week

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
65 Ceruloplasmin (Copper oxidase), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ⁰ C	750.00	255	Biochemistry	temporarily unavailable	2 days
66 Cholesterol, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ⁰ C	150.00	255	Biochemistry		2 days
67 Cholinesterase & Dibucaine Number, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ⁰ C	450.00	255	Biochemistry	temporarily unavailable	1 week
68 Cholinesterase , Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ⁰ C	300.00	255	Biochemistry	request should be authorized by the consultant	
CK, Serum	Look for Creatine Kinase (CK) Serum		255	Biochemistry		1 week
69 Clot culture & ABST	Blood clot	300.00	343	Enteri & Anaerobic Bacteriology		8 days
CMV antigen	Look for Cytomegalovirus (CMV) antigen		452	Virology		
71 CMV IgG EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		1 week
71 CMV IgM EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		1 week
339 Coagulation Factor Assay - Factor 11 Assay	Blood	4,500.00	364	Haematology	Done on prior appointment	2 weeks
343 Coagulation Factor Assay - Factor 1X Assay	Blood	4,500.00	364	Haematology	Done on prior appointment Temporarily unavailable	2 weeks
342 Coagulation Factor Assay - Factor V111 Assay	Blood	4,500.00	364	Haematology	Done on prior appointment Temporarily unavailable	2 weeks
344 Coagulation Factor Assay - Factor X Assay	Blood	5,000.00	364	Haematology	Done on prior appointment Temporarily unavailable	2 weeks
345 Coagulation Factor Assay - Factor X1 Assay	Blood	4,500.00	364	Haematology	Done on prior appointment Temporarily unavailable	2 weeks

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
340	Coagulation Factor Assay -Factor V Assay	Blood	5,000.00	364	Haematology	Done on prior appointment Temporarily unavailable	2 weeks
341	Coagulation Factor Assay -Factor V11 Assay	Blood	5,000.00	364	Haematology	Done on prior appointment Temporarily unavailable	2 weeks
72	Coccidioides IDCF antibodies (Immunodiffusion test)	2 ml serum	12,000.00	333	Mycology		
	Coccidioides IDCF Precipitin Test	Look for Coccidioides IDCF antibodies (Immunodiffusion test)		333	Mycology		
73	Coccidioides IDTP antibodies (Immunodiffusion test)	2 ml serum	12,000.00	333	Mycology		
	Coccidioides IDTP Precipitin Test	Look for Coccidioides IDTP antibodies (Immunodiffusion test)		333	Mycology		
74	Complements (C3), Serum	Blood (2 ml) in a plain dry tube	400.00	355	Immunology		
75	Complements (C4), Serum	Blood (2 ml) in a plain dry tube	400.00	355	Immunology		
76	Copper excretion, Urine	Urine collection, 24 hours	500.00	255	Biochemistry	temporarily unavailable	
	Copper oxidase, Serum	Look for Ceruloplasmin (Copper oxidase), Serum		255	Biochemistry		2 days
77	Copper, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ⁰ C	400.00	255	Biochemistry		2 days
78	Cortisol, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	750.00	262	Endocrinology		3 days
	CPK, Serum	Look for Creatinine Phosphokinase, Serum		255	Biochemistry		2 days
79	C-reactive protein	Blood (2 ml) in a plain dry tube	200.00	355	Immunology		2 days
80	C-Reactive protein (Quantitative)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ⁰ C	300.00	255	Biochemistry		2 days
81	Creatine Kinase (CK) Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ⁰ C	300.00	255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
82	Creatinine clearance test	Urine, 24 hours collection in to a bottle containing 30 ml 6N HCl with a blood sample (2 ml) collected during urine collection, transport as soon as possible at room temperature if delays at 20- 8 ^o C	300.00	255	Biochemistry		2 days
83	Creatinine Phosphokinase, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	200.00	255	Biochemistry		2 days
84	Creatinine, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	150.00	255	Biochemistry		2 days
85	Creatinine, Urine	Urine, 24 hours collection in to a bottle containing 30 ml 6N HCl, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	100.00	255	Biochemistry		2 days
86	Cryoglobulin	Patient to be sent to MRI	300.00	355	Immunology	Done on prior appointment	8 days
87	Cryptococcal Antigen Detection	2 ml serum or CSF 1 ml	8,000.00	333	Mycology	temporarily unavailable	
	Cryptococcus Antigen Test	Look for Cryptococcal Antigen Detection		333	Mycology		
88	Cryptosporidium parvum oocysts detection	Faeces	150.00	244	Parasitology		2 days
89	CSF for Direct microscopy & fungal culture	CSF	1,250.00	333	Mycology		
90	CSF for India ink stain	CSF	750.00	333	Mycology		
	Cu, Serum	Look for Copper, Serum		255	Biochemistry		2 days
	Cu, Urine	Look for Copper excretion, Urine		255	Biochemistry	not done	
91	Culture & ABST (Aerobic)	urine/ CSF/ pus/ fluid/ sputum etc and swabs	350.00	336	Clinical Bacteriology		4 days
92	Culture & ABST, Blood (aerobic)	Blood in blood culture bottle	400.00	336	Clinical Bacteriology	Incubated for 7 - 14 days	When positive growth, informed to the ward
93	Culture & Identification of Helicobacter pylori		1,000.00	336	Clinical Bacteriology	temporarily unavailable	
94	Culture Identification (filamentous fungi)	Fungal isolates	2,500.00	333	Mycology		
95	Culture only (Aerobic)	urine/ CSF/ pus/ fluid/ sputum etc and swabs	250.00	336	Clinical Bacteriology		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
96	Culture only, Blood (aerobic)	Blood in blood culture bottle	300.00	336	Clinical Bacteriology	Incubated for 7 - 14 days	When positive growth, informed to the ward
97	Culture, Blood automated (aerobic & anaerobic) (Adult / Paediatric)	5ml blood in automated blood culture bottle supplied by the laboratory	1,200.00	336	Clinical Bacteriology	Incubated for 7 - 14 days	When positive growth, informed to the ward
98	Cyclosporine concentration, Serum	Blood in a EDTA tube	4,000.00	467	Pharmacology		3 days
99	Cystine (screening test), Urine	Urine	75.00	255	Biochemistry	temporarily unavailable	
	Cytology	Fluid, FNAC		365	Histopathology		2 weeks
100	Cytomegalovirus (CMV) antigen	Blood in a dry plain tube	1,000.00	452	Virology	Done on prior appointment	temporarily unavailable
	Cytoplasmic Anti Neutrophil Cytoplasmic Antibody	Look for cANCA		355	Immunology		
101	D-dimer	Blood collected in to 3.2% trisodium citrate at a ratio of 9:1 (2 ml), Plasma should be separated within 60 minutes and transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C	2,000.00	255	Biochemistry	request should be authorized by the consultant	
102	Dengue Realtime PCR for Clinical Samples collected within 1st five days of illness	Blood in EDTA/Plain tube, CSF in plain tube, tissue in VTM sent in ice- Do not use glass tubes or bottles	7,500.00	452	Virology	Done on prior appointment	1 week
103	Dengue IgM test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		1 week
104	Dengue surveillance (PCR)	Blood (2 - 3 ml) in a dry, sterile plain tube or in a EDTA tube transport in ice- Do not use glass tubes or bottles	Free	452	Virology	by appointment, Consultant's signature needed	
	Dexamethazone suppression test, Serum	Look for Cortisol		262	Endocrinology		3 days
105	DHEAS, Serum (Dihydroxy epi androsterine sulphate)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	1,500.00	262	Endocrinology		1 week
	DIF, Skin Biopsy	Look for Direct immunofluorescence of skin biopsies		355	Immunology		3 weeks
106	Digoxin concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	700.00	467	Pharmacology	temporarily unavailable	

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
	Dihydroxy epi androsterone sulphate (DHEA), Serum	Look for DHEAS, Serum (Dihydroxy epi androsterone sulphate)		262	Endocrinology		
107	Direct & Indirect Bilirubin, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	150.00	255	Biochemistry		2 days
108	Direct immunofluorescence of skin biopsies	Biopsy to be sent Michel's medium issued by the lab	2,500.00	355	Immunology		3 weeks
109	Direct Microscopy & Culture for fungi in environmental samples	Environmental samples	5,000.00	333	Mycology		
110	Direct microscopy & Fungal culture, BAL / Bronchial washings, Bronchial brushings	BAL / Bronchial washings, Bronchial brushings	2,000.00	333	Mycology		
111	Direct microscopy & Fungal culture, Faeces / Urine / Pus / Aspirates/ sterile fluids	Faeces / Urine / Pus / Aspirates/ sterile fluids	2,000.00	333	Mycology		
112	Direct microscopy & Fungal culture, Vaginal, Ear, Throat swabs etc	Vaginal, Ear, Throat swabs etc	2,000.00	333	Mycology		
113	Direct microscopy and culture for fungi, Skin & nail scrapings, hair	Skin & nail scrapings, hair	2,750.00	333	Mycology	temporarily unavailable	
	Direct renin	Look for Renin		262	Endocrinology		
114	Direct smear test (Screening test) for Rabies	Head of animal	Free	434	Rabies Diagnostics & Vaccine QC		
115	Disinfectants Testing (four Organisms)	Disinfectant sample	5,000.00	336	Clinical Bacteriology		4 weeks
116	Disopyramide concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	900.00	467	Pharmacology	temporarily unavailable	
117	Double Stranded DNA (DS-DNA)	Blood (2 ml) in a plain dry tube	400.00	355	Immunology		3 weeks
	DS-DNA	Look for Double Stranded DNA (DS-DNA)		355	Immunology		3 weeks
118	EBV IgM (Epstein-Barr virus)	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	1 week
119	EBV Realtime PCR Viral load (Quantitative assay)	Blood (2 ml) in EDTA/Plain tube sent in ice	10,000.00	452	Virology	Done on prior appointment..Temporarily unavailable	1 week
120	Electrolytes (potassium), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
121	Electrolytes (Sodium & Potassium), 24 hour Urine	Urine, 24 hours collection in to a bottle containing 30 ml 6N HCl, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	300.00	255	Biochemistry		2 days
122	Electrolytes (sodium & potassium), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	250.00	255	Biochemistry		2 days
123	Electrolytes (sodium), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days
124	Electron Microscopy, Rota and Adeno virus isolation from stool samples – one sample	Faeces	1,000.00	411	Electron Microscopy	temporarily unavailable	
125	Electron Microscopy, Scanning EM surface structure studies – per sample	Any sample	2,000.00	411	Electron Microscopy	Done on prior appointment	
126	Electron Microscopy, Transmission EM Histology samples (Up to semi thin sections) For three resin blocks	Histology samples	7,000.00	411	Electron Microscopy	temporarily unavailable	
127	Electron Microscopy, Transmission EM Histology samples (Up to thin sections) For three resin blocks	Histology samples	8,500.00	411	Electron Microscopy	temporarily unavailable	
128	Electrophoresis, CSF	CSF	350.00	255	Biochemistry		1 week
129	Electrophoresis, Serum	Blood in a dry plain tube	300.00	255	Biochemistry		1 week
130	Electrophoresis, Urine	Urine	350.00	255	Biochemistry		1 week
131	Enterovirus isolation, Coxsackie/Echo virus	Faeces (packed in ice), Conjunctival/ulcer/blister fluid swabs in VIM (in ice) CSF (in Ice)	3,000.00	452	Virology		2 weeks
	Epstein-Barr virus IgM	Look for EBV IgM (Epstein-Barr virus)		452	Virology		1 week
132	Ethosuximide concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	900.00	467	Pharmacology	temporarily unavailable	
	Ez, Serum	Look for Oestradiol, Serum (Ez)		262	Endocrinology		
	Fe, Serum	Look for Iron, Serum		255	Biochemistry		2 days
133	Ferritin, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	750.00	262	Endocrinology		3 days
	FFAT	Look for Filarial fluorescent antibody test		244	Parasitology		1 week
134	Filarial antigen test	Blood	1,000.00	244	Parasitology	temporarily unavailable	
135	Filarial fluorescent antibody test	Blood in a dry plain tube	150.00	244	Parasitology		1 week

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
136	Fluorescent antibody test (FAT – Confirmatory test) for Rabies	Head of animal / Human brains	Free	434	Rabies Diagnostics & Vaccine QC		
	Follicular Stimulating Hormone, Serum	Look for FSH (Follicular Stimulating Hormone), Serum		262	Endocrinology		
137	Free Testosterone Index (FTI)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C (Usually morning Sample)	2,000.00	262	Endocrinology		3 days
138	FSH (Follicular Stimulating Hormone), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	600.00	262	Endocrinology		3 days
	Fungal Culture, BAL / Bronchial washings, Bronchial brushings	Look for Direct microscopy & Fungal culture, BAL / Bronchial washings, Bronchial brushings		333	Mycology		
	Fungal Culture, Blood	Look for Blood for Fungal culture		333	Mycology		
	Fungal culture, Faeces / Urine / Pus / Aspirates/ sterile fluids	Look for Direct microscopy & Fungal culture, Faeces / Urine / Pus / Aspirates/ sterile fluids		333	Mycology		
	Fungal Culture, Skin & nail scrapings, hair	Look for Direct microscopy and culture for fungi, Skin & nail scrapings, hair		333	Mycology	temporarily unavailable	
	Fungal culture, Vaginal, Ear, Throat swabs etc	Look for Direct microscopy & Fungal culture, Vaginal, Ear, Throat swabs etc		333	Mycology		
139	γ- GT	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	150.00	255	Biochemistry		2 days
	G6PD (Brewers test)	Look for Brewers test (G6PD)		364	Haematology		
140	Galactomannan test for Aspergillus	2 ml serum in a sterile tube or bronchoalveolar lavage fluid (BAL) in a sterile container	10,000.00	333	Mycology	temporarily unavailable	
141	Gentamycin concentration, Serum	Blood in a dry plain tube (2 ml) transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C , Peak & trough	2,250.00	467	Pharmacology	request should be authorized by the consultant (temporarily unavailable)	3 days
	GH, Serum	Look for Growth Hormone, Serum		262	Endocrinology		
142	Glucose Tolerance Test, Blood	Blood collected into a sugar tube(2 ml), transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C	350.00	255	Biochemistry		2 days
143	Glucose, CSF	CSF collected into a sugar bottle (1 ml) transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
144	Glucose, Plasma (Fasting or Random or Post Prandial)	Blood collected in to a sugar tube (2 ml) transported with adequate ice-packs in styrofoam box 2 - 8 ^o C	125.00	255	Biochemistry		2 days
	Glycated Hb	Look for HbA1C, Blood		255	Biochemistry		2 days
145	Growth Hormone, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	1,000.00	262	Endocrinology	temporarily unavailable	1 week
146	H. pylori antibodies	Blood in a dry plain tube	1,000.00	345	Serology		1 day
336	Haemoglobin Capillary Electrophoresis	Blood	1,500.00	364	Haematology	Done on prior appointment	3 weeks
147	Haemoglobin electrophoresis	Blood (2 ml) in EDTA tube	1,200.00	364	Haematology		
148	Haptoglobin	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	750.00	255	Biochemistry	request should be authorized by the consultant	1 week
	Hb electrophoresis	Look for Haemoglobin electrophoresis		364	Haematology		
149	HbA1C, Blood	Blood collected into EDTA tube (2 ml) transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	600.00	255	Biochemistry		
150	Hb-H inclusion bodies	Blood (2 ml) in a EDTA tube		364	Haematology	Done on prior appointment	1 week
151	Hepatitis A IgG test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	2 weeks
152	Hepatitis A IgM test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	2 weeks
153	Hepatitis B Antibody surveillance	Blood (2 - 3 ml) in a dry plain tube	Free	452	Virology		
154	Hepatitis B core antibody (total/IgM) EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		2 weeks
155	Hepatitis B surface Antibody	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	3 days
156	Hepatitis B surface Antigen ELISA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		3 days
157	Hepatitis C antibody test	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		3 days
158	Hepatitis E IgG test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		4 weeks
159	Hepatitis E IgM test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		4 weeks
	HIAC ,Urine	Look for 5- Hydroxy – indol acetic acid, (HIAC) ,Urine		467	Pharmacology		
160	Histopathological examination	Biopsy specimen	2,000.00	365	Histopathology		1 week
161	Histopathological examination	Surgical specimen	2,000.00	365	Histopathology		1 week

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
162	Histopathology (Special stains) - Fungal	Biopsy specimens	2,000.00	333	Mycology		
163	Histoplasma antibodies (immunodiffusion test)	2 ml serum	12,000.00	333	Mycology		
	Histoplasma Precipitin Test	Look for Histoplasma antibodies (immunodiffusion test)		333	Mycology		
164	Hospital Outbreak Investigation (aerobic)	swab/clinical specimen	250.00	343	Enteri & Anaerobic Bacteriology	If no growth 3 days	6 days
165	HPLC for thalassaemia and Haemoglobin Variants	Blood (2 ml) in EDTA tube	1,500.00	364	Haematology		3 weeks
166	HSV IgM or IgG test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	1 week
167	HSV Real Time PCR (qualitative assay)	Blood (2 ml) in plain/EDTA tube, CSF in plain tube, Swabs in viral transport medium send in ice- Do not use glass tubes or bottles	7,500.00	452	Virology	Done on prior appointment	1 week
356	Hydatid Cyst / Echinococcus	Fluid		244	Parasitology		2 days
	ICT for Rabies	Look for Immuno-chromatography for diagnosis of Rabies		434	Rabies Diagnostics & Vaccine QC		
	IgA, Serum	Look for Immunoglobulin A (IgA), Serum		355	Immunology		3 weeks
168	IGF-1	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C		262	Endocrinology	temporarily unavailable	2 weeks
169	IgG anti-aspergillus antibodies	2 ml serum	10,000.00	333	Mycology		
	IgG, Serum	Look for Immunoglobulin G (IgG), Serum		355	Immunology		3 weeks
	IgM, Serum	Look for Immunoglobulin M (IgM), Serum		355	Immunology		3 weeks
170	Immuno-chromatography for diagnosis of Rabies	Brain specimen	Free	434	Rabies Diagnostics & Vaccine QC		
171	Immunodeficiency work up package, serum Electrophoresis, Serum Immunoglobulin, Complements (C3, C4)	Blood (2 ml) in a plain dry tube	2,000.00	355	Immunology		3 weeks
172	Immunoglobulin A (IgA), Serum	Blood (2 ml) in a plain dry tube	400.00	355	Immunology		3 weeks
173	Immunoglobulin E (IgE), Serum	Blood (2 ml) in a plain dry tube	400.00	355	Immunology	temporarily unavailable	
174	Immunoglobulin G (IgG), Serum	Blood (2 ml) in a plain dry tube	400.00	355	Immunology		3 weeks
175	Immunoglobulin M (IgM), Serum	Blood (2 ml) in a plain dry tube	400.00	355	Immunology		3 weeks

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
	Influenza A & B	Look for Respiratory viruses antigen detection Influenza A & B,		452	Virology		
176	Influenza surveillance	Naso pharyngeal aspirates, Nasal & throat swabs in viral transport medium in ice early in the illness. Clinical history mandatory	Free	452	Virology		2 days
177	Insulin	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,500.00	262	Endocrinology		1 week
	Insulin-Like Growth Factor-1	Look of IGF-1		262	Endocrinology		2 weeks
178	Intact PTH	Collect Blood into an EDTA tube. Separate plasma within 4 hours. Freeze the sample at -200 C. Transport in a Styrofoam box with adequate ice-packs. Better if patient can be sent to the bleeding room, MRI on a week day with properly filled request form	1,000.00	262	Endocrinology		1 week
179	Iodine, Urine	urine	700.00	152	Nutrition	temporarily unavailable	
180	Iron & Iron Binding Capacity, Serum	Blood in a dry acid-washed plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box 2 - 8 ^o C	250.00	255	Biochemistry	temporarily unavailable	2 days
181	Iron, Serum	Blood in a dry acid - washed plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box 2 - 8 ^o C	150.00	255	Biochemistry		2 days
182	Japanese Encephalitis surveillance	CSF (1 ml) & Blood (2 - 3 ml) in a dry plain tube	Free	452	Virology		1 week
183	JE IgM test EIA	Blood (2 - 3 ml) or CSF (1 ml) in a dry plain tube	1,250.00	452	Virology		1 week
	K ⁺ , Serum	Look for Electrolytes (potassium), Serum		255	Biochemistry		
184	Lactic Dehydrogenase (LDH), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	150.00	255	Biochemistry		2 days
	LDH, Serum	Look for Lactic Dehydrogenase (LDH), Serum		255	Biochemistry		2 days
185	Legionella antibody	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box		336	Clinical Bacteriology	temporarily unavailable	
186	Legionella Urinary Antigen detection by ELISA	Urine	1,250.00	336	Clinical Bacteriology		One week
187	Leishmania Antibody Test (Visceral Leishmaniasis)	Blood in a dry plain tube	750.00	244	Parasitology		

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
188	Leishmaniasis (Cutaneous)	Skin Biopsy	500.00	244	Parasitology		2 days
190	Leptospira culture	Blood in transport medium obtained from the laboratory	600.00	344	Leptospira		when culture positive
189	Leptospira detection by Dark Ground Microscopy	CSF, urine (Freshly collected - ideal within 2 hours)	250.00	344	Leptospira		Within one hour
	Leptospira MAT	Look for Leptospira Microscopic agglutination test		344	Leptospira		
191	Leptospira Microscopic agglutination test (MAT)	Blood in a dry plain tube	400.00	344	Leptospira		48 hours
	Leptospira PCR	Look for PCR (Realtime quantitative) for Pathogenic Leptospira		344			
192	Leptospira Serogroup identification		5,000.00	344	Leptospira	temporarily unavailable	
	LFT, Serum	Look for Liver Function Tests, Serum, (LFT)		255	Biochemistry		2 days
193	LH (Luteinizing Hormone), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	600.00	262	Endocrinology		3 days
	Li, Serum	Look for Lithium, Serum (Li)		255	Biochemistry		2 days
194	Lipid profile, Serum	Blood in a dry plain tube (4 ml) or Serum 2 ml transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C	400.00	255	Biochemistry		2 days
195	Lithium, Serum (Li)	Blood in dry plain tube (2ml) or serum 1 ml (serum trough) transported in adequate ice-packs in styrofoam box at 2 - 8 ^o C	300.00	255	Biochemistry	request should be authorized by the consultant	2 days
196	Liver Function Tests, Serum, (LFT)	Blood in a dry plain tube (4 ml) or Serum 2 ml transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C	350.00	255	Biochemistry		2 days
	Luteinizing Hormone, Serum	Look for LH (Luteinizing Hormone), Serum		262	Endocrinology		
197	Lymphocyte subset each subsequent marker	Blood (2 ml) collected into EDTA tube	1,500.00	355	Immunology	Done on prior appointment	3 days
198	Lymphocyte subsets First marker	Blood (2 ml) collected into EDTA tube	2,500.00	355	Immunology	Done on prior appointment	
199	Magnesium, Serum (Mg)	Blood in a dry acid-washed plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box 2 - 8 ^o C	150.00	255	Biochemistry		2 days
200	Magnesium, Urine (Mg)	24 hour Urine collection into a bottle containing 30 ml 6N HCl, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	300.00	255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
201	Malaria parasite (thick & thin films)	Blood	50.00	244	Parasitology		2 days
202	Mannan antigen for Candida (Candida Antigen ELISA)	3 ml serum	10,000.00	333	Mycology	temporarily unavailable	
203	Measles IgG test EIA	Blood (2 - 3 ml) or CSF (1 ml) in dry plain tube	750.00	452	Virology		1 week
204	Measles IgM test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		4 days
	Metanephrine, Urine	24 hrs urine, prior preparation required. Collect into preservative added container		467	Pharmacology		4 days
205	Methaemoglobin level	Blood (2 ml) in a EDTA tube		364	Haematology	Done on prior appointment	1 week
206	Methotrexate concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	900.00	467	Pharmacology	temporarily unavailable	
	Mg, Serum	Look for Magnesium, Serum (Mg)		255	Biochemistry		2 days
	Mg, Urine	Look for Magnesium, Urine (Mg)	300.00	255	Biochemistry		2 days
207	Microalbumin, Urine (albumin)	Urine, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	400.00	255	Biochemistry		2 days
208	Micro-albumin/Creatinine ratio, Urine (Albumin/Creatinine ratio)	Spot Urine in sterile plain bottle (First/second morning sample transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C	400.00	255	Biochemistry		2 days
209	Microfilaria thick blood film	Blood	50.00	244	Parasitology		
210	Minimum inhibitory concentration (MIC) & Minimum bactericidal concentration (MBC)	Bacterial isolate, (only S.pneumoniae, Viridans streptococci or Enterococci)	1,300.00	353	Bacteriology QC		3 days
211	Mono Spot Test	Blood in a dry plain tube	150.00	345	Serology	temporarily unavailable	
212	Mouse inoculation test for diagnosis of Rabies	Brain specimen	Free	434	Rabies Diagnostics & Vaccine QC		
	MPO-ANCA	Look for pANCA		355	Immunology		3 weeks
213	MRSA Screening	swabs/clinical specimens	350.00	336	Clinical Bacteriology		5 days
214	Mumps IgG test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	1 week
215	Mumps IgM test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		1 week
216	Mycoplasma antibody test	Blood in a dry plain tube	350.00	336	Clinical Bacteriology		4 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
	Na, Urine	Look for Sodium, Urine		255	Biochemistry		
	Na ⁺ , Serum	Look for Electrolytes (sodium), Serum		255	Biochemistry		
217	Netilmicin concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	2,500.00	467	Pharmacology	temporarily unavailable	
218	Neutrophil function Test (NBT)	Patient to be sent to MRI	500.00	355	Immunology	Done on prior appointment	5 days
219	Oestradiol, Serum (Ez)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	1,000.00	262	Endocrinology		1 week
220	Osmotic fragility test	Blood		364	Haematology	Done on prior appointment	
221	Oxalate, 24 hour Urine	Urine collection, 24 hours	150.00	255	Biochemistry	temporarily unavailable	
222	pANCA	Blood (3 ml) in a plain dry tube		355	Immunology		3 weeks
223	Paracetamol concentration, Serum (PCM)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,000.00	467	Pharmacology	temporarily unavailable	
358	Parasites in Food	Food sample		244	Parasitology		1 week
	Parathyroid Hormone	Look for Intact PTH		262	Endocrinology		
224	Participation in National External Quality Assurance Scheme in Mycology (Annual fee)	NEQAS	25,000.00	333	Mycology		
225	Participation in NEQAS Programme in Haematology (Annual fee)	NEQAS	1,000.00	364	Haematology		
226	Participation in the National External Quality Assurance Scheme (NEQAS), Biochemistry (Annual fee)	NEQAS	30,000.00	255	Biochemistry		
227	Participation of private laboratories in quarterly NEQAS, Bacteriology (Annual fee)	NEQAS	3,000.00	353	Bacteriology QC		Not applicable
228	Parvo virus IgG test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	
229	Parvo virus IgM test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	
	Paul Bunnel Test, Serum	Look for Mono Spot Test		345	Serology		3 days
	PCM, Serum	Look for Paracetamol concentration, Serum (PCM)		467	Pharmacology		

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
230	PCR (Realtime) for CMV Viral load (Quantitative)	Blood (3 - 4 ml) collected in EDTA tube , 1 - 2 ml in children suspected of congenital- Do not use glass tubes or bottles	10,000.00	452	Virology	Done on prior appointment	1 week
231	PCR (Realtime) for Corona Virus	Naso pharyngeal or tracheal Aspirates in viral transport medium sent in ice, Clinical history mandatory- Do not use glass tubes or bottles	10,500.00	452	Virology	Done on prior appointment	on demand
232	PCR (Realtime) for Pandemic Influenza (H1N1) and Influenza B	Respiratory Specimens, Nasal and nasopharyngeal swabs in viral transport medium transport in ice. (Transport medium can be collected from MRI)- Do not use glass tubes or bottles	10,500.00	452	Virology		2 days
348	PCR (Realtime) for Pathogenic Leptospira	Blood (3 - 5 ml) collected in EDTA tube /serum (adequate ice-packs in Styrofoam box at 2 - 8 ^o C)	2,500.00	342	Molecular Bacteriology	Ideally EDTA blood should be sent in ice	24 hours
233	PCR for Diagnosis of Rabies	Brain specimen- Do not use glass tubes or bottles	Free	434	Rabies Diagnostics & Vaccine QC		
234	PCR, Real time for Adeno Virus	Nasopharyngeal or Tracheal aspirate in Viral transport medium sent in ice- Do not use glass tubes or bottles	7,500.00	452	Virology		on demand
235	PCR, Real time for Dengue virus with typing	Blood (2 ml) in EDTA, Bone marrow aspirate (1 ml) in a plain tube sent in ice- Do not use glass tubes or bottles	12,000.00	452	Virology		1 week
236	PCR, Real time for Para influenza Virus	Nasopharyngeal or Tracheal aspirate in Viral transport medium sent in ice- Do not use glass tubes or bottles	7,500.00	452	Virology		on demand
237	PCR, Real time for RSV	Nasopharyngeal or Tracheal aspirate in Viral transport medium sent in ice- Do not use glass tubes or bottles	7,500.00	452	Virology		on demand
238	PCR, Real time HCV Viral load	Blood (5 ml) in EDTA tube sent in ice- Do not use glass tubes or bottles	10,000.00	452	Virology		2 weeks
239	PCR, Real time, HBV viral load	Blood (5 ml) in EDTA tube sent in ice- Do not use glass tubes or bottles	10,000.00	452	Virology		2 weeks
240	PCR, Real time, Parvo Virus viral load	Blood (2 - 3 ml) in EDTA sent in ice- Do not use glass tubes or bottles	7,500.00	452	Virology	Done on prior appointment	
	PCR, Realtime Dengue	Look for Dengue Realtime PCR for Clinical Samples collected within 1st five days of illness		452	Virology		1 week
241	PCR, Realtime for BK Virus	Blood (3 - 4 ml) in EDTA, Urine (10 - 15 ml) in sterile bottle sent in ice- Do not use glass tubes or bottles	10,000.00	452	Virology	Done on prior appointment	1 week
	PCR, Realtime for HSV (qualitative)	Look for HSV Real Time PCR (qualitative assay)		452	Virology		3 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
	PCR, Realtime, EBV Viral load	Look for EBV Realtime PCR Viral load (Quantitative assay)		452	Virology		1 week
	PCR, Real-time, Zika Virus	Look for Zika Virus Real-time PCR (Qualitative assay)		452	Virology		2 weeks
	pernucleic Anti Nutrophilic Cytoplasmic Antibody	Look for pANCA		355	Immunology		
242	Pertussis Culture	per-nasal swab/ cough- plate / naso-pharyngeal aspirate	600.00	336	Clinical Bacteriology		1 week
243	PH measurement, 24 hours Urine	Urine collection, 24 hours, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	100.00	262	Endocrinology		
244	Phenobarbital concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	900.00	467	Pharmacology	request should be authorized by the consultant	
245	Phenytoin concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C		255	Biochemistry	request should be authorized by the consultant	3 days
246	Phenytoin concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,000.00	467	Pharmacology	request should be authorized by the consultant	
247	Phosphate excretion (PO ₄ excretion), 24 hour urine	Urine, 24 hours collection in to a bottle containing 30 ml 6N HCl with a blood sample (2 ml) collected during urine collection, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	300.00	255	Biochemistry		2 days
248	Phosphate, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days
249	Phosphorous, Serum & Urine Phosphorous excretion (24 hour)	Urine collection 24 hrs& blood sample collected during urine collection, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	250.00	255	Biochemistry		2 days
250	Phosphorus excretion (24 hour Urine)	Urine, 24 hours collection in to a bottle containing 30 ml 6N HCl, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	300.00	255	Biochemistry		2 days
251	Phosphorus, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
338	Platelet aggregometry for antiplatelet drug effect	Blood	2,500.00	364	Haematology	Done on prior appointment	1 week
252	Platelet function test	Blood	2,500.00	364	Haematology	Done on prior appointment	1 week
253	Pneumocystis carinii detection	Br.Lavage, Br. Washings, sputum	1,000.00	244	Parasitology		3 days
	PO ₄ , Serum	Look for Phosphate, Serum		255	Biochemistry		2 days
	PO ₄ excretion (Phosphate excretion), 24 hour urine	Look for Phosphate excretion (PO₄ excretion), 24 hour urine		255	Biochemistry		
	Potassium, Serum	Look for Electrolytes (potassium), Serum		255	Biochemistry		
253	Potassium, Urine	Urine, 24 hours collection in to a bottle containing 30 ml 6N HCl, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	100.00	255	Biochemistry		2 days
	PR3-ANCA	Look for cANCA		355	Immunology		
255	Primidone concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	900.00	467	Pharmacology	temporarily unavailable	
256	Progesterone	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	750.00	262	Endocrinology		1 week
257	Prolactin	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	600.00	262	Endocrinology	temporarily unavailable	3 days
	Prostate Specific antigen	Look for PSA Total		262	Endocrinology		
258	Protein Estimation, 24 hour Urine	Urine collection, 24 hours, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	200.00	255	Biochemistry		2 days
259	Protein, Urine	24 hour Urine collection into a bottle containing 10 ml Thymol (10% isopropanol), transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	300.00	255	Biochemistry		2 days
260	Proteins, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	125.00	255	Biochemistry		2 days
261	PSA Total	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,000.00	262	Endocrinology		1 week
	PTH	Look for Intact PTH		262	Endocrinology		1 week
262	Rabies Antibody (Rapid Fluorescent Focus Inhibition Test) RFFIT	Blood, 3 ml in a plain tube	3,500.00	131	Rabies Diagnostics & Vaccine QC		

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
263	Renal function tests	Blood in a dry plain tube (4 ml) or Serum 2 ml transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C		255	Biochemistry		2 days
350	Renin	Blood, Please contact the laboratory before collection		262	Endocrinology	Done on prior appointment	
264	Respiratory viruses antigen detection Influenza A & B,	Nasopharyngeal aspirates nasal & throat swabs in Viral transport medium in ice	1,700.00	452	Virology		on demand
265	Respiratory viruses antigen detection Influenza A & B, Adeno, parainf, RSV	Nasopharyngeal aspirates nasal & throat swabs in Viral transport medium in ice	5,000.00	452	Virology		
266	Retinol (Vit A), Serum	Blood in a dry plain tube	850.00	152	Nutrition	temporarily unavailable	
	RF, Serum	Look for Rheumatoid factor (RF), Serum		355	Immunology		
	RFFIT	Look for Rabies Antibody (Rapid Fluorescent Focus Inhibition Test) RFFIT		131			
267	RFFIT for rabies antibodies (Rapid fluorescent focus inhibition test	Human serum & CSF	3,500.00	434	Rabies Diagnostics & Vaccine QC		
268	Rheumatoid factor (RF), Serum	Blood (2 ml) in a plain dry tube	200.00	355	Immunology	temporarily unavailable	
	Rickettsial Antibody, Serum	Look for Weil Felix Test		345	Serology		3 days
337	Ristocetin induced platelet agglutination (RIPA)	Blood	1,000.00	364	Haematology	Done on prior appointment	1 week
269	Rotavirus surveillance	Faeces (10 g) in a screw capped wide mouth bottle transported in ice	Free	452	Virology		
270	Rubella & Measles surveillance	Blood (2 - 3 ml) in a dry plain tube	Free	452	Virology		3 days
271	Rubella IgM	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	1 week
272	Rubella, ELISA IgG (Quantitative	Blood (2 - 3 ml) in a dry, sterile plain tube transport in ice	1,250.00	452	Virology	temporarily unavailable	1 week
273	Sarcopti scabei (Skin scrapings) detection	Skin Scrapings	200.00	244	Parasitology	temporarily unavailable	
274	SAT	Blood in a dry plain tube	150.00	345	Serology		3 days
355	Scistosomiasis ,Urine	Urine		244	Parasitology		2 days
275	Serotyping for E.coli	Culture tube or plate	200.00	343	Enteri & Anaerobic Bacteriology		3 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
276	Serotyping for salmonella	Culture tube or plate	500.00	343	Enteri & Anaerobic Bacteriology		7 days
277	Settle plates	Settle plate	250.00	343	Enteri & Anaerobic Bacteriology		2 days
	Sex Hormone Binding Globulin	Look for SHBG (Sex Hormone Binding Globulin)		262	Endocrinology		2 weeks
278	SGOT(AST), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days
279	SGPT (ALT), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days
280	SHBG (Sex Hormone Binding Globulin)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,500.00	262	Endocrinology		2 weeks
281	Short Synacthen test	Look for Cortisol		255	Endocrinology		
282	Sickling test	Blood (2 ml) in a EDTA tube		364	Haematology	Done on prior appointment	1 week
	Sodium & Potassium), Serum	Look for Electrolytes (sodium & potassium), Serum		255	Biochemistry		
	Sodium & Potassium, 24 hour Urine	Look for Electrolytes (Sodium & Potassium), 24 hour Urine		255	Biochemistry		
283	Sodium Valproate concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	2,700.00	467	Pharmacology		3 days
284	Sodium, Urine	Urine, 24 hours collection in to a bottle containing 30 ml 6N HCl, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	100.00	255	Biochemistry		2 days
	Special Stain	slides/ Wax blocks		365	Histopathology		1 week
285	Specimens for gram stain	Any clinical specimens	75.00	336	Clinical Bacteriology		1 hour
286	β HCG, Serum (HCG) (Total β HCG)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	600.00	262	Endocrinology		1 week
287	Stool culture & ABST	Faeces/Rectal swabs	350.00	343	Enteri & Anaerobic Bacteriology		5 days
288	Stool examination for AOC	Stool	50.00	244	Parasitology		
289	Stool for concentration test	Faeces	200.00	244	Parasitology		
290	Stool for egg count	Stool	75.00	244	Parasitology		
291	Stool for tapeworm segments	Faeces	100.00	244	Parasitology		

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
292	Stools for Campylobacter	Faeces/Rectal swabs	300.00	343	Enteri & Anaerobic Bacteriology		4 days
293	Stools for V.chollere	Faeces/Rectal swabs	300.00	343	Enteri & Anaerobic Bacteriology		5 days
294	T3 (free), Serum (tri-iodothyronine)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	500.00	262	Endocrinology	temporarily unavailable	3 days
295	T4 (free), Serum (Thyroxine)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	500.00	262	Endocrinology		3 days
296	Tacrolimus assay	Blood in a EDTA tube	4,000.00	467	Pharmacology		3 days
297	Testing for Bacillus anthracis	Contaminated powder/clinical sample	5,000.00	336	Clinical Bacteriology		1 week
298	Testosterone (free), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	1,000.00	262	Endocrinology		3 days
299	Tests for Vaccine Quality Assurance	Relevant vaccines concerned	Free	131	Rabies Diagnostics & Vaccine QC		
	TG	Look for Thyroglobulin		262	Endocrinology		
300	Theatre/Labour Room/Environmental Screening (aerobic)	Swabs	250.00	343	Enteri & Anaerobic Bacteriology		6 days
301	Theophyllin concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	900.00	467	Pharmacology	request should be authorized by the consultant	
302	Thyroglobulin			262	Endocrinology		2 weeks
	Thyroglobulin antibody	look for Anti-tg (IgG class of thyroglobulin autoantibodies) (Antithyroglobulin antibody) (Thyroglobulin antibody)		262	Endocrinology		
303	Thyroid function test (TSH + T4), Serum	Blood in a dry plain tube (4 ml) or serum 2 ml transported with adequate ice-packs in Styrofoam box	1,250.00	262	Endocrinology	temporarily unavailable	3 days
	Thyroid peroxidaese autoantibodies (IgG) (Anti-TPO)	Look for Anti-TPO (IgG class of thyroid peroxidaese autoantibodies (Anti-thyroid peroxidase antibody) (Thyroid perxidase antibody)		262	Endocrinology		1 week
	Thyroid Stimulating Hormone, Serum	Look for TSH (Thyroid Stimulating Hormone), Serum		262	Endocrinology		3 days
	Thyroxine, Serum	Look for T4 (free), Serum (Thyroxine)		262	Endocrinology		3 days
	TIBC, Serum	Look for Iron & Iron Binding Capacity, Serum		255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
304	Tobramycin concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	900.00	467	Pharmacology	temporarily unavailable	
305	Total B-hCG	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	600.00	262	Endocrinology		1 week
	Total β HCG, Serum	Look for β HCG, Serum (HCG) (Total β HCG)		262	Endocrinology		
306	Toxocara Antibodies	Blood in a dry plain tube	800.00	244	Parasitology	Only for government hospital samples	1 week
307	Toxoplasma ELISA IgG	Blood in a dry plain tube	500.00	244	Parasitology		1 week
308	Toxoplasma ELISA IgM	Blood in a dry plain tube	500.00	244	Parasitology		1 week
309	Toxoplasma fluorescent antibody test	Blood in a dry plain tube	800.00	244	Parasitology		
310	Toxoplasma isolation	Glands, CSf	1,000.00	244	Parasitology		
311	Transferrin	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	750.00	255	Biochemistry	request should be authorized by the consultant	2 weeks
312	Trichomonas culture	Vaginal swabs	200.00	244	Parasitology	temporarily unavailable	
313	Trichomonas direct smear	Vaginal swabs	100.00	244	Parasitology		1 day
314	Tricyclic Antidepressants concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	850.00	467	Pharmacology	temporarily unavailable	
315	Triglycerides, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	150.00	255	Biochemistry		2 days
	Tri-iodothyronin, (T3)	Look for T3 (free), Serum (tri-iodothyronine)		262	Endocrinology		3 days
316	Troponin I, High sensitive	Blood collected into EDTA tube (2 ml) transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	800.00	262	Endocrinology		
317	Tryptase level Assay, Serum	Blood in a dry plain tube	4,000.00	355	Immunology	Done on prior appointment	depend on number of samples
318	TSH (Thyroid Stimulating Hormone), Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box	500.00	262	Endocrinology		3 days
	Typhus antibody, Serum	Look for Weil Felix Test		345	Serology		3 days
319	Urea or BUN, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	100.00	255	Biochemistry		2 days

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

	Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
320	Urea, Urine	Urine collection 24 hours	100.00	255	Biochemistry		2 days
321	Uric Acid, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	150.00	255	Biochemistry		2 days
322	Uric Acid, Urine	Urine, 24 hours collection in to a bottle containing 10g of Boric acid crystals, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	100.00	255	Biochemistry		2 days
323	Urine Protein/Creatinine ratio	Spot Urine in sterile plain bottle (First/second morning sample transported with adequate ice-packs in styrofoam box at 2 - 8 ^o C	400.00	255	Biochemistry		2 days
324	Urine sugar chromatography	Urine, transport as soon as possible at room temperature if delays at 2 ^o - 8 ^o C	1,000.00	262	Endocrinology	temporarily unavailable	
325	V.M.A. (Vanil Mandelic acid), urine	Urine	1,500.00	467	Pharmacology		4 days
326	Vancomycin concentration, Serum	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	2,000.00	467	Pharmacology	temporarily unavailable	3 days
	Vanil Mandelic acid, Urine	Look for V.M.A. (Vanil Mandelic acid), urine		467	Pharmacology		
327	Varicella IgG test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology	temporarily unavailable	1 week
328	Vericella IgM test EIA	Blood (2 - 3 ml) in a dry plain tube	750.00	452	Virology		2 weeks
329	Vitamin B12	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	1,000.00	262	Endocrinology	temporarily unavailable	1 week
330	Vitamin D (25-hydroxy vitamin D	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ^o C	2,000.00	262	Endocrinology	temporarily unavailable	1 week
334	VonWillibrand Activity assay		10,700.00	364	Haematology	temporarily unavailable	2 weeks
335	VonWillibrand Antigen assay		8,750.00	364	Haematology	temporarily unavailable	2 weeks
331	Weil Felix Test	Blood in a dry plain tube	150.00	345	Serology		3 days
357	Worm identification	worm		244	Parasitology		1 week
332	Zika Virus Real-time PCR (Qualitative assay)	Blood (2 ml) in EDTA/Plain tube, sent in ice- Do not use glass tubes or bottles	5,000.00	452	Virology		2 weeks

Laboratory Investigations done at MRI as at 24-01-2017

Medical Research Institute - Investigations - TP : 0112693532 - 4 , 0112693527 Website: www.mri.gov.lk Updated 28.01.2018

Investigation	Specimen	Charges/Price	TP Extension	Section	Remarks	Turn around time
333 α - 1 antitrypsin (α 1 AT)	Blood in a dry plain tube (2 ml) or serum 1 ml transported with adequate ice-packs in Styrofoam box at 2 - 8 ⁰ C	750.00	255	Biochemistry	request should be authorized by the consultant	2 days
α 1 AT (α - 1 antitrypsin)	Look for α - 1 antitrypsin (α1 AT)		255	Biochemistry
